STEP 4 Select Other

Apple Email Setup Instructions
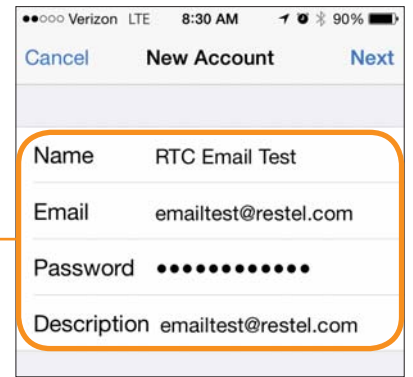

STEP 5 Select Add Mail Account

STEP 6 Fill in info

STEP 6-1 Example

Description can be anything you would like, Name, email address, etc.
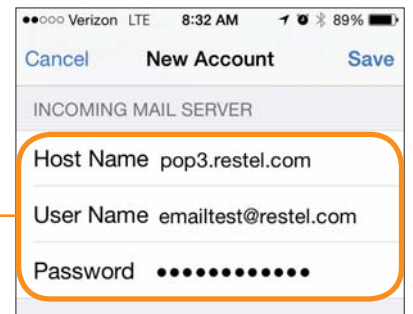

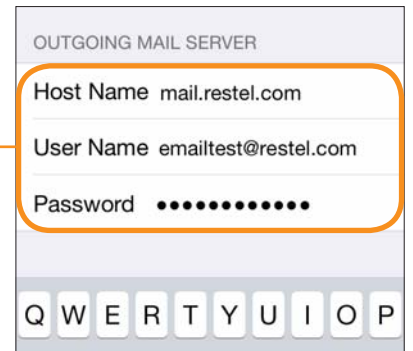

**STEP 7** Select POP

STEP 8 Fill in info

Make sure you use restel.com at all steps.

STEP 8-1 Fill in info
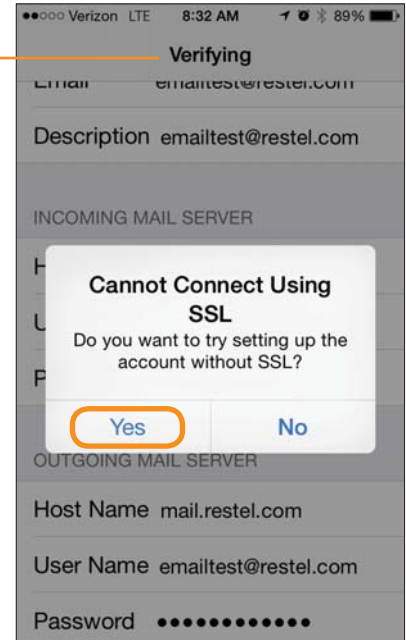

Make sure you use restel.com at all steps.

STEP 9 Verifying Settings

After putting in all the settings, the phone will verify for a long time, then give the message shown at right.

Select YES.

It will then verify again.

You may get this message two times while doing the verification.

STEP 10 DONE!

When verification is done, your new account will show up under the accounts list in mail settings.

*You can check settings clicking on the account name.*

*By selecting Advanced, this will show that the **Server Port for Incoming is 110.***

*By selecting SMTP and then the promary server {mail. restel.com}, this will show that the **Server Port for Outgoing is 25.***

*If these ports are anything different, correct them.*
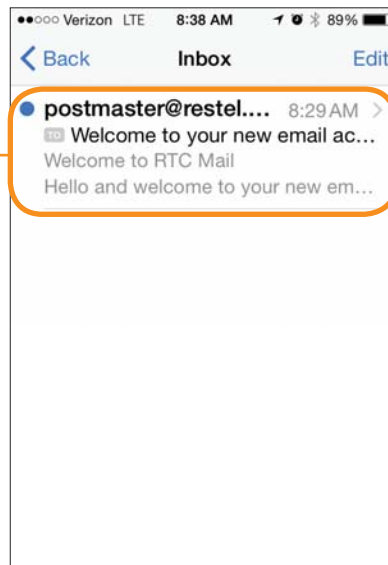

STEP 10-1 Check Ports

RTC

STEP 12 Check Email

STEP 11 Select Mail

STEP 13 Receiving Mail

You should now be able to receive messages, if you get this message then you can see it is working properly.

If you are having trouble with setting up an email account on your device after completing these instructions, contact the IT department at RTC by calling 701-862-3115 or by emailing internethelp@restel.com
